# What are the risks of investing?

Risk indicator for the Pie Global Growth 2 Fund<sup>1</sup>

< Potentially Lower Returns			Potentially Higher Returns >			
1	2	3	4	5	6	7
< Lower R	isk		Higher Risk >			

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

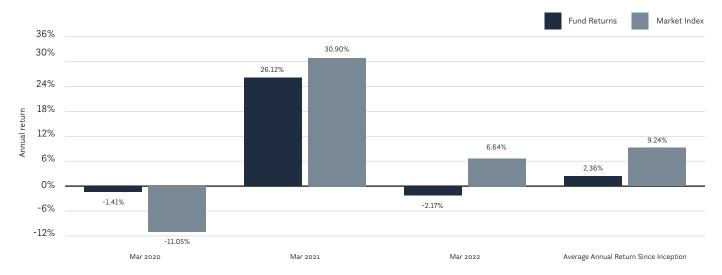

# How has the fund performed?

	Past Year
Annual return (after deductions for charges and tax)	-2.17%
Annual return (after deductions for charges but before tax)	-0.99%
Market Index annual return (reflects no deduction for charges and tax)	6.64%

The MSCI ACWI Index (NZD) includes large and mid-cap representation across 23 Developed Markets and 24 Emerging Markets countries. With over 2,900 constituents, the index covers approximately 85% of the global investable equity opportunity set. The index assumes the dividends are reinvested and so measures both growth and dividend income.

Additional information about the market index is available on the offer register.

## Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2022. Important: This does not tell you how the fund will perform in the future.

Returns in this section are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

# What fees are investors charged?

Investors in Pie Global Growth 2 Fund are charged fund charges. In the year to 31 March 2022, these were:

	% of net asset value
Total fund charges	1.45%
Which are made up of:	
Total management and administration charges	1.45%
Including	
Manager's basic fee	1.45%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
Other charges	\$ amount per investor
Other charges	\$0.00

#### Fees are exclusive of GST, if any.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds, although these are not currently charged by Pie Funds).

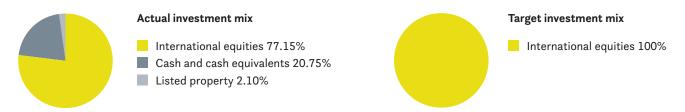

# Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Lucy had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Lucy incurred a loss after fund charges were deducted of \$99 (that is .99% of her initial \$10,000). Lucy did not pay any other changes. This gives Lucy a total loss after tax of \$217 for the year.

#### What does the fund invest in?

This shows the types of assets that the fund invests in.2

Hedging: We actively manage all currency exposure. It is not our intention to 100% hedge the currency at all times; some overseas securities may be unhedged. The hedged foreign currency exposure (as a percentage of total foreign currency exposure of the fund) is 56.38% (unhedged 43.62%).

# **Notes**

- As the Fund has not been in existence for five full years, its risk category has been calculated using market index returns as well as
  actual returns. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
  Market index returns have been used for the period from 1 April 2017 30 April 2018.
  - During times of extreme market volatility, the risk may be greater than indicated. Past performance may not be reliable indicator for the risk of the fund.
- 2. For further information on each of the asset classes refer to the PDS and SIPO.
