Fund update for the quarter ended: 31.12.24

This fund update was first made publicly available on 24.01.25

What is the purpose of this update?

This document tells you how the Pie Australasian Dividend Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Pie Funds Management Limited (Pie Funds) prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Pie Australasian Dividend Growth Fund seeks to provide investors with a regular dividend payment stream or reinvestment and long term capital growth. It does this by investing predominantly in a concentrated portfolio of hand-picked Australasian smaller and medium companies that pay a dividend or produce cash-flow available for future distributions and whose earnings growth potential we do not consider fully realised by the market.

The Pie Australasian Dividend Growth Fund may also invest in other types of financial products such as cash, unlisted equities as well as Large Companies.

What are the risks of investing?¹

Risk indicator for the Pie Australasian Dividend Growth Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years up to 31 December 2024. Important: This does not tell you how the fund will perform in the future.

† Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Pie Australasian Dividend Growth Fund are charged fund charges. In the year to 31 March 2024, these were:

	% of net asset value
Total fund charges	1.85%
Which are made up of:	
Total management and administration charge	1.85%
Including	
Manager's basic fee	1.85%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
Other charges	\$ amount per investor
Other charges	\$0.00

Fees are exclusive of GST, if any.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds, although these are not currently charged by Pie Funds).

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Lucy had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Lucy incurred a gain after fund charges were deducted of \$1,519 (that is 15.19% of her initial \$10,000). Lucy did not pay any other charges. This gives Lucy a total gain after tax of \$1,535 for the year.

Notes

- During times of extreme market volatility, the risk may be greater than indicated, particularly for this fund as it invests in smaller companies; smaller companies can be more volatile when markets sell down. Past performance may not be a reliable indicator for the risk of the fund.
- For further information on each of the asset classes refer to the PDS and the SIPO.
