What are the risks of investing?¹

Risk indicator for the Pie KiwiSaver Balanced Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

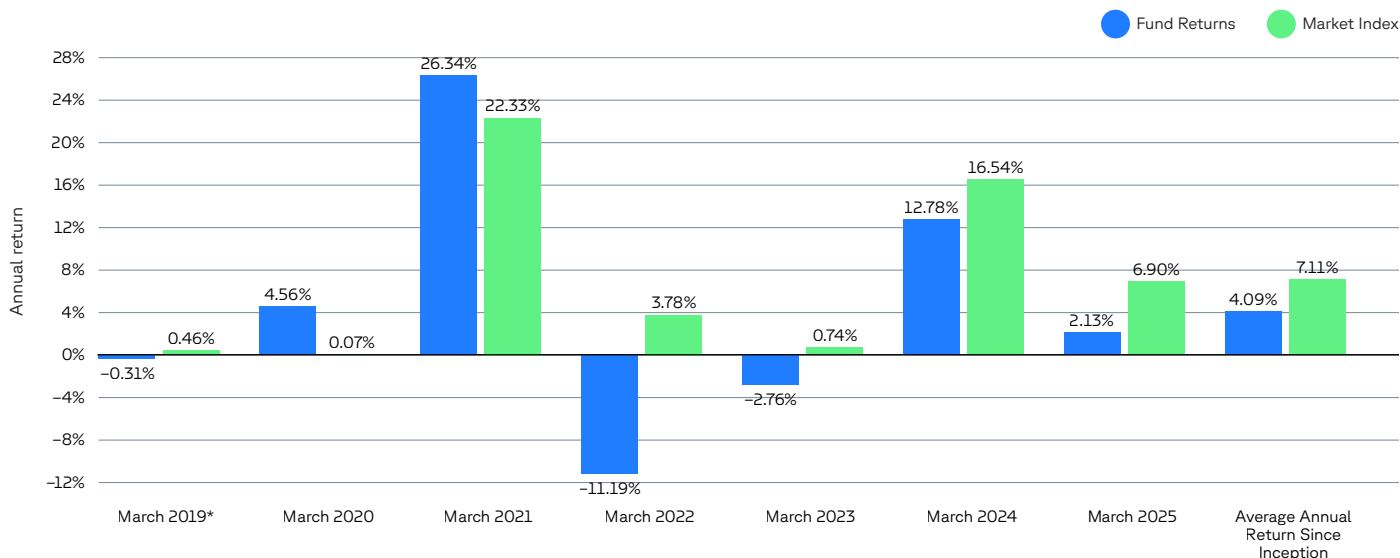

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2025. Important: This does not tell you how the fund will perform in the future.

† Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Pie KiwiSaver Balanced Fund are charged fund charges. In the year to 31 March 2024, these were:

| | % of net asset value |
|---|-------------------------------|
| Total fund charges | 0.69% |
| Which are made up of: | |
| Total management and administration charges | 0.69% |
| Including | |
| Manager's basic fee | 0.69% |
| Other management and administration charges (estimate) ² | 0.00% |
| Total performance-based fees | 0.00% |
| Other charges | \$ amount per investor |
| Other charges | \$0.00 |

Fees are exclusive of GST, if any.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds, although these are not currently charged by Pie Funds).

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Lucy had \$35,000* in the fund at the start of the year and did not make any further contributions. At the end of the year, Lucy incurred a gain after fund charges were deducted of \$747 (that is 2.13%** of her initial \$35,000). Lucy did not pay any other charges. This gives Lucy a total gain after tax of \$562 for the year.

*This figure has been used as it represents close to the average KiwiSaver Scheme member's balance as per 2024 FMA KiwiSaver Statistical return.

**This is the percentage return after deducting the total fund flat fee of \$240 p.a. Fee based on fund balance of \$35,000.
