#### What are the risks of investing?

Risk indicator for Pie Growth 2 Fund <sup>1</sup>

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter)

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 1 October 2011 to 30 September 2016. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## What fees are investors charged?

Investors in Pie Growth 2 Fund are charged fund charges. In the year to 31 March 2016 these were:

	% of net asset value
<b>Total fund charges</b>	4.02%
Which are made up of:	
<b>Total management and administration charges</b>	
Including	
Manager's basic fee	1.13%
Other management and administration charges	0.00%
<b>Total performance-based fees</b>	2.89%
<b>Other charges</b>	\$ amount per investor
Other charges	\$0.00

See the Product Disclosure Statement for more information about the basis on which performance fees are charged.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Product Disclosure Statement for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Lucy had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Lucy received a return after fund charges were deducted of \$3,600 (that is 36.00% of her initial \$10,000). Lucy did not pay any other charges. This gives Lucy a total return after tax of \$3,720 for the year.

## Notes

1. As the Fund has not been in existence for five full years, its risk category has been calculated using market index returns as well as actual returns. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. Market index returns have been used for the period from 1 October 2011 - 31 July 2015.
2. For further information on each of the asset classes refer to the PDS and the SIPO.
