

Fund Update

PIE FUNDS MANAGEMENT SCHEME: PIE CONSERVATIVE FUND

Fund update for the quarter ended: 31.03.18

This fund update was first made publicly available on 27.04.18

What is the purpose of this update?

This document tells you how the Pie Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Pie Funds Management Limited (**Pie Funds**) prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Conservative Fund will seek to provide investors with a return which outperforms the official cash rate (OCR). The Fund's strategy is to invest predominantly (approximately 80%) with New Zealand registered banks (the intention being with at least two such banks) in cash held on call or term deposit for a duration of no more than 12 months. In addition, the Pie Conservative Fund may also invest (approximately 20%) in equities either directly or through the other Pie Funds products. We may also invest in bonds and other types of financial products at our discretion.

Total value of fund	\$23,720,522.47 as at 31.03.18
Date the fund started	15.04.15

How has the fund performed?

	Past Year
Annual return (after deductions for charges and tax)	4.69%
Annual return (after deductions for charges but before tax)	5.43%
Market Index annual return (reflects no deduction for charges and tax)	1.95%

The NZBond Bank Bill Index (BNZBIL) represents a passively managed short term money market portfolio and is comprised of instruments defined by rates from the RNBZ 24-hour cash rate and bills with a maturity of 1 month to 3 months.

Additional information about the market index is available on the offer register.

What are the risks of investing?

Risk indicator for the Pie Conservative Fund ¹

< Potentially Lower Returns			Potentially Higher Returns >			
1	2	3	4	5	6	7
< Lower Risk			Higher Risk >			

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 1 April 2013 - 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2018. Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (**PIR**) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?*

Investors in the Pie Conservative Fund are charged fund charges. In the year to 31 March 2018, these were:

	% of net asset value
Total fund charges	0.61%
Which are made up of:	
Total management and administration charges	0.24%
Including	
Manager's basic fee	0.23%
Other management and administration charges	0.01%
Total performance-based fees	0.37%
Other charges	\$ amount per investor
Other charges	\$0.00

Fees are exclusive of GST, if any.

See the Product Disclosure Statement for more information about the basis on which performance fees are charged. Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds, although these are not currently charged by Pie Funds. Small differences in fees and charges can have a big impact on your investment over the long term.

*The fees are represented as a percentage of net asset value (**NAV**). While Pie Funds charges fees as a percentage of gross asset value (**GAV**); the law insists the fees be disclosed as a percentage of NAV. As a result, there will be discrepancies between the fees set out in this document and the actual fees incurred.

Example of how this applies to an investor

Lucy had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Lucy received a return after fund charges were deducted of \$543 (that is 5.43% of her initial \$10,000). Lucy did not pay any other charges. This gives Lucy a total return after tax of \$469 for the year.

What does the fund invest in?

This shows the types of assets that the fund invests in.²

We actively manage all currency exposure. It is not our intention to 100% hedge the currency at all times; some overseas securities may be unhedged.

Top 10 investments

	Name	% of fund net assets	Type	Country
1	Kiwibank Deposit	28.50%	Cash and cash equivalents	NZ

Further information

You can also obtain this information, the PDS for the Pie Conservative Fund, and some additional information from the offer register at www.companiesoffice.govt.nz/disclose.

Notes

- As the Fund has not been in existence for five full years, its risk category has been calculated using market index returns as well as actual returns. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. Market index returns have been used for the period from 1 April 2013 - 31 March 2015.
- For further information on each of the asset classes refer to the PDS and the SIPO.
