What are the risks of investing?

Risk indicator the for Pie Growth 2 Fund¹

< Potentially Lower Returns				Potentially Higher Returns >		
1	2	3	4	5	6	7
< Lower Risk				Higher Risk >		

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 1 July 2013 - 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2018. Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (**PIR**) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?*

Investors in the Pie Growth 2 Fund are charged fund charges. In the year to 31 March 2018, these were:

	% of net asset value
Total fund charges	3.09%
Which are made up of:	
Total management and administration charges	1.55%
Including	
Manager's basic fee	1.55%
Other management and administration charges	0.00%
Total performance-based fees	1.54%
Other charges	\$ amount per investor
Other charges	\$0.00

Fees are exclusive of GST, if any.

See the PDS for more information about the basis on which performance fees are charged. Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds, although these are not currently charged by Pie Funds. Small differences in fees and charges can have a big impact on your investment over the long term.

*The fees are represented as a percentage of net asset value (**NAV**). While Pie Funds charges fees as a percentage of gross asset value (**GAV**); the law insists the fees be disclosed as a percentage of NAV. As a result, there will be discrepancies between the fees set out in this document and the actual fees incurred.

Example of how this applies to an investor

Lucy had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Lucy received a return after fund charges were deducted of \$1,954 (that is 19.54% of her initial \$10,000). Lucy did not pay any other charges. This gives Lucy a total return after tax of \$2,045 for the year.

Notes

- As the Fund has not been in existence for five full years, its risk category has been calculated using market index returns as well as actual returns. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. Market index returns have been used for the period from 1 July 2013 - 31 July 2015.
- For further information on each of the asset classes refer to the PDS and the SIPO.
